

# RCRA Site Detail

Report run on: January 10, 2014 - 1:21 PM

Version 5.0

## User Selection Criteria

**Handler EPA ID:** WAD009251323

**History:** All records

**BR Cycles:** Show all

**Include Notes:** No

## Results

Data meeting the criteria you selected follows.

Total Pages: 18

## Report Description

The RCRA Site Detail report provides "all available details" from the handler module and summarized information from the waste activity monitoring module for one RCRA site. The report integrates National Biennial RCRA Hazardous Waste Report data with Site Identification data.

Details reported about the RCRA site include basic handler module information; the standard suite of universes; information about each source record received for the facility, including basic information, location and mailing address, source record and permit contact person (including historical records), list of NAICS codes, complete list of regulated waste activities; and summarized National Biennial RCRA Hazardous Waste Report information by reporting cycle year, including quantity totals (generated, managed, shipped, received), and top ten GM forms by quantity generated. Top ten GM form list shows reported waste description, quantities, onsite and offsite system types, and EPA and State waste codes.

Information listed for the RCRA site can be limited by latest historical information and most recent BR cycle.

Data is sorted by the most recent Received Date. If more than one record has the same Received Date, the data is sorted by Source Type (I-Implementer; N-Notification, B-Biennial Report with Subsequent Notification, R-Biennial Report, A-Part A, T-Temporary, E-Emergency).

## Report Information

Name: h\_site\_detail.rdf  
Developed by: EPA Headquarters, Office of Resource Conservation and Recovery  
Deployed: November 2002  
Last Revised: September 2012  
Contact: rcrainfo.help@epa.gov  
Tables Used: hbasic, hreport\_univ5, gis4, gis\_lat\_long4, lu\_generator\_status, hother\_id5, hpart\_a5, hhandler5, lu\_generator\_status, lu\_country, howner\_operator5, hnaics5, lu\_naics, hstate\_activity5, lu\_state\_activity, hother\_permit5, lu\_other\_permit, huniversal\_waste5, lu\_universal\_waste, hwaste\_code5, bgm\_basic, bgm\_onsite\_treatment, bgm\_offsite\_shipment, bgm\_waste\_code, lu\_management\_method, lu\_state, hid\_groups, hhsm\_basic5, hhsm\_activity5, hhsm\_waste\_code5

**NOTE:** Some data is suppressed if it is null or blank. See documentation in RCRAInfo Help for details.

**List of Hazardous Waste Code Descriptions**

Please run the lookup table report for LU\_WASTE\_CODES for description of federal and state waste codes in this report.

**List of Handler Universe Abbreviations**

Active	Active Status -- Indicates that the facility could be subject to the federal RCRA, Subtitle C or a state's authorized hazardous waste program. This definition has no legally enforceable or binding determination about the status of a particular site or the obligations of an owner or operator.
Commercial TSDF	Commercial TSDF -- Indicates that the facility is a commercial operator of treating, storing and disposing of hazardous waste.
EI Indicator (HE/GW)	Environmental Indicator (Human Exposure/Groundwater Release) -- Indicates that the facility has controls in place for Environmental Indicators. HE - Human Exposures ('+' indicates the exposure exists and is under control; '-' indicates the exposure exists and is not under control; 'N' indicates the exposure does not exist). GW - Groundwater Release ('+' indicates the exposure exists and is under control; '-' indicates the exposure exists and is not under control; 'N' indicates the exposure does not exist).
Federal Generator	Federal Generator Status -- Indicates the regulatory status of the site as determined by the quantity and/or toxicity of hazardous wastes generated, stored or accumulated over a specified period of time.
HSM	HSM -- Indicates that the facility manages hazardous secondary material(s) (e.g. spent material, by-product or sludge) that when discarded, would be identified as hazardous waste.
IC In Place	Institutional Controls in Place -- Indicates that the facility has Institutional Controls in place ('Y' indicates that the facility is in the universe).
Importer	Importer -- Indicates that the facility imports hazardous waste into the United States from a foreign country.
Mixed Waste Generator	Mixed Waste Generator -- Indicates that the facility is a generator or TSDF that handles waste mixed with nuclear source, special nuclear or by-product material.
Operating TSDF	Operating TSDF -- Indicates that the facility is a Treatment, Storage or Disposal facility subject to any type of enforcement. It then specifies the type of facility (L - Land Disposal; I - Incinerator; B - BIF; S - Storage; T - Treatment).
Short Term Generator	Short Term Generator -- Indicates that the facility is a short term or one time event generator and not generating from ongoing processes.
State Generator	State Generator Status -- Indicates the regulatory status of the site in view of implementing the State's "broader in scope" or "more stringent than" rules. Although an implementing State might use terms that differ for their generators these terms would be translated to match the Federal regulatory term.
Transporter	Transporter -- Indicates that the facility is engaged in the off-site transportation of hazardous waste. ('Y' indicates that the facility is in this universe).
Subpart K/College	Subpart K/College or University -- Indicates facility has opted into the subpart k laboratory rule as a college or university.
Subpart K/Hospital	Subpart K/Teaching Hospital -- Indicates facility has opted into the subpart k laboratory rule as a teaching hospital.
Subpart K/Non-profit	Subpart K/Non-profit Research Institute -- Indicates facility has opted into the subpart k laboratory rule as a non-profit research institute.
Subpart K/Withdrawal	Subpart K/Withdrawal from Rule -- Indicates facility has withdrawn from the subpart k laboratory rule.

From: 01/01/1997 To: KIRKLAND Phone:

Land Type: Private Non Notifier: No TSD Date: Accessibility:

NAICS Codes: 33121 IRON AND STEEL PIPE AND TUBE MANUFACTURING FROM PURCHASED STEEL

## Regulated Waste Activities

Hazardous Waste Generator Status - Federal: Large Quantity Generator; State: WA-1 Large Quantity Generator

## Other Hazardous Waste Generator Activities

Short Term Generator: No  
Importer Activity: No  
Mixed Waste Generator: No  
Transporter Activity: No  
Transfer Facility: No  
TSD Activity: No  
Recycler Activity: No  
Off-Site Receipt: No

## Exempt Boiler and/or Industrial Furnace

Small Quantity Onsite Burner Exemption: No  
Smelting, Melting, Refining Furnace Exemption: No

Underground Injection Control: No

Destination Facility for Universal Waste: No

## Used Oil Activities

Used Oil Transporter Activity Off-Specification Used Oil Burner: No  
Transporter: No  
Transfer Facility: No  
Used Oil Fuel Marketer Activity  
Marketer who directs shipment off-specification used oil to off-specification used oil burner: No  
Processor: No  
Refiner: No  
Marketer who first claims the used oil meets the specifications: No

## Subpart K

College/University: No Non-profit Research Institute: No  
Teaching Hospital: No Withdrawal: No

## 2003 Biennial Report Information
